

# 28MM FILTER KIT

SQUEEZE OR GRAVITY FED INLINE FILTRATION

## SPECIFICATIONS

**TECHNOLOGY** - Hollow fiber filter;  
0.2 micron (0.0002 mm)

**EFFECT** - Removes bacteria, cysts  
and sediment

**FILTER CAPACITY** - Up to 1,500 liters

**FILTER OUTPUT** - Rate >1 liter per minute

**WEIGHT** - 47 g / 1.6 oz

**DIAMETER** - 34 mm g / 1.3 in

**DIMENSIONS** - 440 mm x 185 mm,  
17.3 in x 7.3 in

**MATERIALS** - PP/POM, EPDM, Silicone,  
Hollow Fiber

## PRODUCT PROFILE

- Ultra-versatile, threads onto all 28mm opening HydraPak bottles and flasks, or use with Plug-N-Play connections on reservoirs and water storage containers.
- Filter cleans easily with included backflush adapter.
- Filter effectively removes common waterborne bacteria, such as E. coli (99.9999%), and parasitic cysts (99.9999%) per EPA Guide Standards and NSF P231 & microplastics (99.999%) per NSF 42 greater than or equal to 3.0 microns in size.

## FEATURES

- 1 **FAST & SAFE FILTRATION** - Filters approximately 1,500L of fresh water at a rate of >1L per minute.
- 2 **LIGHT & COMPACT** - Small enough to fit inline in packs and takes up minimal space when not in use.
- 3 **PLUG-N-PLAY COMPATIBLE** - Connect and disconnect filter from Plug-N-Play ports in reservoirs and caps.
- 4 **28MM THREAD COMPATIBLE** - Threads onto most backpacking bottles and flasks, including HydraPak Stow and 1L SmartWater™ bottle.
